

# Load up on Life.

**CO GO**

Dear Ca Go Partner,

We are proud to introduce our latest model – the Ca Go CS. With the City Utility Vehicle (CUV) we have reinvented the bike. Our aim was to create an everyday vehicle that combines the high utility of a cargo bike with the compact design of a more conventional bike, while being extremely agile, stable, and fun to ride. And I would say that we have completely succeeded. Rather CUV than SUV – this is our idea, and the Ca Go CS is definitely the better city vehicle in our opinion.

With our still young model portfolio, we want to offer our customers innovative and focused products that are in tune with the spirit of the times and help to shape the change towards sustainable urban transport concepts. To achieve this, we focus on the needs of our customers and solve their everyday mobility problems based on use cases. With the courage to change, we question facts, see and seize opportunities, and consistently implement them with our expertise, attention to detail and the need to work together as partners. We are driven by a passion to bring the best and safest products to the market.

Experience Ca Go for yourself, our unique City Utility Vehicle and Long John range.

We look forward to seeing you!

Sophie & Adam Browne

from AlsoBikes Ltd  
*UK & IRE distributors*

With the Ca Go CS, you manage your busy everyday life with its many routes and activities in a stress-free, environmentally friendly and fun way.

As a City Utility Vehicle (CUV), it is extremely manoeuvrable and tailor-made for urban traffic, with a versatile cargo space perfect for transporting everyday items – a Swiss army knife on two wheels!

CS stands for Center and Single Track, which is a clear reference to the technical basis and our aspiration.

# Discover new possibilities

*„The Ca Go CS is not a classic cargo bike, it is a city utility vehicle, a statement for eco-friendly mobility and the future of urban transport. It skilfully combines practicality with riding pleasure, creating a new dimension in load capacity“.*

*Johannes Rasche, Ca Go Head of Design*

## Pure fun

The Center Rack not only provides storage space, it also gives a real go-kart feeling thanks to the low center of gravity between the wheels – loaded and unloaded.

The dual-cable steering makes it easy to manoeuvre and take any corner with ease.

<b>Overall length</b>	204 cm
<b>Wheelbase</b>	149 cm
<b>Impeller size</b>	20
<b>Width</b>	47 cm
<b>Standover height</b>	3 cm
<b>Center Rack</b>	Ground Area 40x33 cm
<b>Net Weight (incl. 1 battery)</b>	from 35,5 kg
<b>Max. total weight Front Rack</b>	18 kg
<b>Max. total weight Center Rack</b>	30 kg
<b>Max. total weight Rear Rack</b>	27 kg
<b>Max. total weight</b>	180 kg
<b>Body height</b>	160–200 cm
<b>Seat tube angle</b>	65°
<b>Steering head angle</b>	70°

# Maximum flexibility

A

### For heavy loads

Up to 27 kg\* can be easily transported on

the Rear Rack, and panniers can be conveniently attached via the MIK-HD interface. Thanks to the ABUS frame lock, the CS is always quickly locked.

B

### Suitable for (virtually) every body size

Whether 1.65 m or 2.00 m – everyone feels comfortable on the CS thanks to the flat seat angle and individually adjustable stem.

D

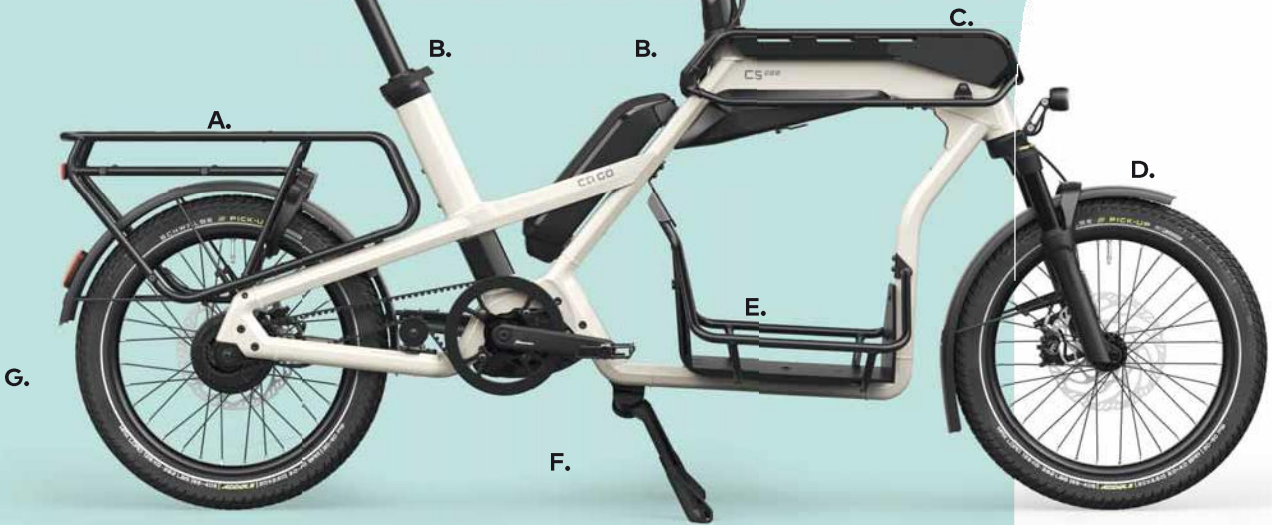

### Comfortable city set-up

In everyday use, the CS scores with its compact design, small turning circle and high-quality components that ensure optimum comfort under load.

C

### For quick pick up and drop off

The Front RACK carries up to 18 kg\* and the MIK interface makes it easy to secure loads.

G

### Shifting the way you like it

Whether you prefer a sporty front derailleur, a continuously variable chain-speed hub or a belt drive for maximum comfort, the CS has the right gear for you.

F

### Smart power unit

The CS is powered by the Bosch Cargo Line Smart System, consisting of Drive Unit, PowerPack 545 Wh battery, LED remote control and eBike Flow app with many useful functions.

E

### Low center of gravity for real go-kart feeling

The 400 x 330 mm center frame has been optimised for everyday use and can accommodate 30 kg\*, while the low center of gravity between the wheels makes for extremely agile and stable handling, both loaded and unloaded.

\*Permissible total weight: 180 kg

# Safe ride – the successfully crash tested cargo bike

FS200 Life's safety concept passed an independent crash test with flying colours, impressing the experts at Steinacker.

Overall length	270 cm
Wheelbase	206,5 cm
Front wheel	20"
Rear wheel	27,5"
Width	70 cm
Stand over height	46,5 cm
Empty weight (EPP-Cargo box and 1 battery)	from 53 kg
Capacity	200 l / 70 kg
Max. weight Rear Rack	25 kg
Max. total weight	225 kg
Body height	160–200 cm
Seat tube angle	68°
Steering head angle	68°

A cargo bike for the whole family: The FS Life is uniquely designed to make everyone feel comfortable. Thanks to ergonomic child seats with five-point safety belts and height-adjustable headrests, children are both comfortable and safe. This makes the EPP-Cargobox a unique safety passenger compartment, unlike any other cargo bike.

The FS Life is equipped with high-end components, even in the basic version, so that you can enjoy carefree urban mobility and always rely on your cargo bike. This means durability and carefree usage for many kilometres.

*„The energy absorption and crash safety of the safety passenger cell in the Ca Go FS200 Life set standards and are ideal for the safe transport of children.“*

*Dr.-Ing. Tobias Steinacker*

# FS200 LIFE

Happy children, proud parents and the wind in their faces. With the FS200 Life, the daily trip to nursery, school (or wherever life takes you) becomes a safe and comfortable way of traveling.

**Factory-fitted with the highest level of equipment:**

# Impressively versatile – reassuringly safe

Let it be beverage crates, potting soil, parcels or Euro boxes:  
The FS200 Vario effortlessly adapts to your transport  
making it the ideal companion for safely carrying your goods  
and products.

Overall length	270 cm
Wheelbase	206,5 cm
Front wheel	20"
Rear wheel	27,5"
Width	65 cm
Stand over height	46,5 cm
Weight, incl. 1 battery, Foamlite® cargo bed and Cross-Bars	from 53 kg
Capacity	370 l / 70 kg
Max. total weight	225 kg
Body height	160–200 cm
Seat tube angle	68°
Steeringhead angle	68°

It is full of clever solutions. For example, the variable Organizer-Set or the Vario-Soft-Walls for loose goods that can be mounted in no time. Put the Vario-Soft-Top on and turn the cargo hold into a closed transporter. When things get bulky, Cross-Bars and tension straps come to the rescue.

And even up to a maximum load of 70 kg, this e-cargo bike always finds a solution. In short: It's your new, versatile and fully-fledged transport mobile with plenty of space and clever features. Goodbye car, hello FS200 Vario!
